

Trust Electronic Remittance Report Automation

Green Technology

Making it easier and faster
to remit trust payments

Paperless Solutions

TERRA is a green integrated solution which eliminates or reduces printing of hard copy forms and correspondence. Elimination of hard copy forms has a trickle down effect, reducing postal fees, reducing greenhouse gas emissions, and decreasing waste. All of these help reducing your carbon footprint.

Energy Savings

TERRA eliminates the necessity of lockbox services, courier services, and reduces file cabinet footprints. The reduction of the energy consumption related to each of the above is significant, resulting in not only reduced costs and time, but less impact on the environment.

Our services cover many areas and we rely on the fact that we can find the right solutions for installations, integrating systems and peripherals, training, and creating unique customizations. Please contact us for more information and client references.
